**Fair Dealings:**

RUNWAY INTERNATIONAL treats its clients and competitors fairly, with trust, respect and value of cultural and individual differences, so that the company is strengthened by better understanding, even by professional adversity.

**Professional Excellence:**

RUNWAY INTERNATIONAL believes in attaining professional excellence as a group by encouraging constant learning, training and individual development in order to achieve the group's mission.

# MISSION

RUNWAY INTERNATIONAL aims to become one of the leading HR service-providing companies in Bangladesh. It strives to help clients/partners and/or delegated associates to achieve the commonly shared stakes and reach the targets and develop their objectives by providing specific solutions and support services with a built-in feedback and monitoring system.

# VISION

RUNWAY INTERNATIONAL aims to become the leading organization in both the service and product sectors. It is a client-focused company, which is committed to being the best to make a difference as an HR (Manpower) service provider. Its innovativeness and openness especially being committed to providing fair, just, reasonable and transparent services.

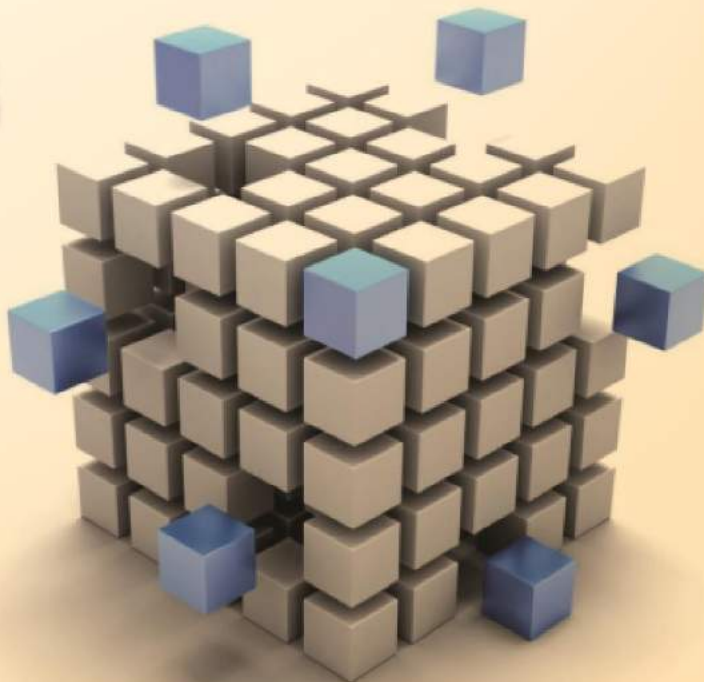

# OBJECTIVES

Provide a high standard of services suitable for individuals seeking relaxing, comfortable & experiences in the hospitality & tourism industry. RUNWAY INTERNATIONAL strives to achieve excellence also in marketing goods and services in Bangladesh through creativity, innovativeness and quality service with an aim to satisfy the specific needs of the whole community and stakeholders.

# VALUES

Encourage growth Value every relationship and Encourage Inclusivity. Integrity, do what is right in a team spirit.

RUNWAY INTERNATIONAL is a company that embraces changes and is flexible enough to create new structures and approaches. At the foundation of these labors are the values, which serve to guide the day-to-day decision-making of all conditioning. The RUNWAY culture is to furnish a common language to communicate about who we are" through performance and practical disbursement of services.

# RESPECT FOR THE PEOPLE

Respect is best demonstrated by developing and delivering quality services to the clients. Respect means creating meritocracy in which performance is rewarded. An integral feature of RUNWAY INTERNATIONAL and its business is respect for its clients and even its competitors as well as people of different cultures and races with particular empathy and commitment to the inductees or recruited HR resources.

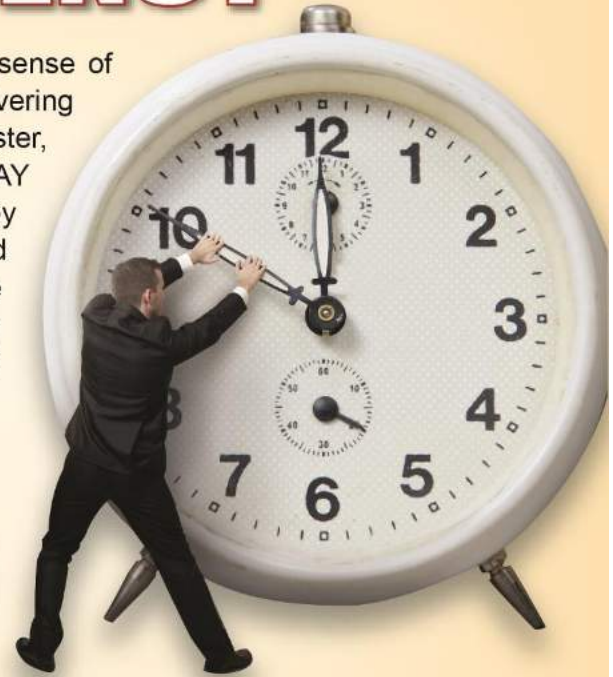

# INTEGRITY

Integrity allows reaching the right decisions faster and gives the speed needed to be competitive. At the heart of integrity is transparency in its actions, motives and intentions. "Walk the talk" and creation of company feeling, comradeship, and fraternity brotherhood.

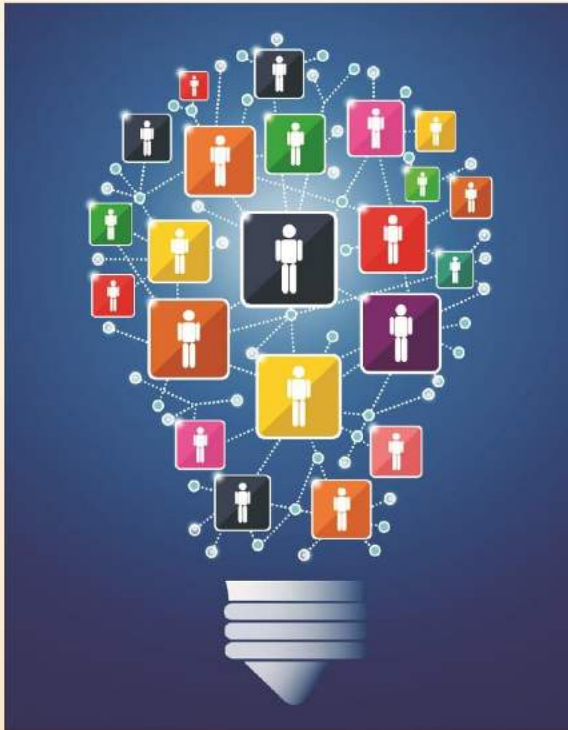

# SENSE OF URGENCY

Speed and simplicity are the fundamental aspects of a sense of urgency. It means being goal-oriented & focusing on delivering results. In order to give quality results and make work faster, changes are made to the process. # AVAILABILITY OF MANPOWER

The unemployment rate in Bangladesh for the year 2020 was 5.30% a 1.08% increase from 2019. Besides a huge number of the unskilled labor force, skilled, semi-skilled and professional manpower is also available for foreign employment. Some relevant data in this regard are given below:

## TECHNICAL MANPOWER

Skilled workers and technicians play a key role in all sectors of the economy. To produce skilled technicians there are mid-level technical and vocational training systems in the country. Mid-level technical education is provided after the tenth year of schooling. Polytechnic sub-system offers well-organized 4-year Diploma courses in engineering and technology. There are a total of 49 Government polytechnic Institutes and approximately 220 private polytechnic institutes available in Bangladesh. All Government polytechnic institutes are maintained by the Bangladesh Technical Education Board.

The Government polytechnic is the first choice of every student, but somehow many students are failed to admit a government polytechnic & finally they admit to private polytechnic institutions. Polytechnic education gives a man hands-on experience within a progressive learning environment. Presently 13% of students are directly connected with polytechnic education but the Bangladeshi Government has taken the target to increase this rate to 20% in recent time. Now the Government is working towards that goal.

Besides Polytechnics, there are a number of agricultural and allied industries. Textile and leather technology institutes and commercial institutes and other specialized polytechnic institutes offer diploma-level courses in their respective fields.

There is an Islamic University of Technology IUT (formerly Islamic Centre for Technical & Vocational Training & Research, ICTVTR), a subsidiary organ of the Organization of the Islamic Conference (OIC). The Centre has been mandated to help develop the vast Human resources of the member states and provide technical training on international standards needed for the industrial, economic and social development of Muslim Ummah through the offering of long regular courses in engineering and technologies and trades and organizing short and special knowledge and skill updating courses along with technological and industrial research and further research in the field of human resources development with particular emphasis on technical and vocational education.

In IIT a great variety of academic and training programs are offered starting from the lowest trade level to the highest post-Graduate Diploma and Master's Degree in Technical Education Encompassing Certificate and Diploma in Vocational Education, Diploma and B.Sc. in Technical Education, Higher Diploma and B.Sc.

Engineering Degree in Electrical and Electronic and Mechanical Engineering with various specializations in different rare technologies, such as computer science and technology Power Systems, CAD/CAM, Energy, Production and Instrumentation Engineering. There are 64 Vocational Training Institutes (VTIs) and 13 Technical Training Centers (TTCs) and 1 Bangladesh Institute of Marine Technology (BIMT) which cater to the training needs of craftsmen in the basic trades.

A diploma in Marine Technology is also offered from BIMT. The Marine Academy at Jaldia, Chittagong turns out certificated officers for merchant navy: 13 TTCs and 1 BIMT produce annually about 17980 & 7000 highly skilled technicians on different trades suitable for overseas employment. At present, about 1000 engineers & 25000 Technicians are available for employment at home & abroad. The country's industries employ about 1.5 million workers of different categories.

Telecommunication engineers & technicians, tradesmen skilled in basic Engineering and building trades like Electricians, petrol/diesel mechanics, air-conditioning mechanics, radio/television mechanics, fabricators, marine mechanics and operators, welders of all categories, fitters, machinists, molders, turners, platters, plumbers, pipe fitters, painters, steel fixtures, carpenters, masons, garments workers, draftsmen, etc. are available for employment Testing facilities on different occupations and technical trades are available in the modern Technical Training Centers.

# OUR TRAINING CENTER

## **RUNWAY International has a training institute in the name & style of "RUNWAY Bangladesh Training Institute".**

The action to conduct training for people interested in mileage themselves of work abroad is underway at colorful public and private vocational training institutions. Side by side we too are making a major advance in training our draftees and other trainees by formerly expanding our compass and installations at our own training and testing center, which will be taking shape of a huge full-fledged center veritably shortly.

RUNWAY Bangladesh Training Center focuses on conducting training of transnational labor, at the request position to the trainees. The training center is completely equipped with training installations and outfit has sufficient area for the training purpose. The training center has formulated and designed the course after completely studying the public and transnational labor request norms. The training center has a largely good and educated educator for trade-wise conditioning and provides training on mason, steel fixer, carpenter, electrician, welding, plumbing, electrical, finishing carpenter and scaffolding.

### **Why training is needed**

Training is a process of adding knowledge, developing chops and changing the station of a person to ameliorate job performance in a pre-determined direction literacy is an experience that occurs inside the learner and is actuated by the coach. It's the changing of behavior in a positive direction.

### **Proposed area of the training**

RUNWAY Bangladesh training center with the once experience and detail in studying the demand situation of worker's employment in public and transnational circles through the employment agencies of Bangladesh has designed the training programs.

### **Proposed area of the training**

- To give introductory chops and knowledge to the interested youth of Bangladesh.
- To give employment openings to the trained labor force, who'll get training at the institutes?
- To develop the network for information relating to the foreign employment and employment agency.

### **Purpose**

- To give employment openings to those who are interested and indigent.
- To help the real poor through arranged free specialized training.

### **Output of the training.**

- To give introductory chops training and make them suitable to work at public and transnational positions in trades.
- To arrange and give employment openings to the trained labor force.
- To make them suitable to work in the public and transnational positions in colorful vocational trades.

### **Target groups for the training**

The targeted area of the training program is over Bangladesh. The able and interested to work abroad shall be the crucial targeted person. There's no demarcation on gender, estate, and race. Consideration and preferences will be given to those who are from deprived families. Consideration will also be given to those who approach the recommendation of training institutions and employment agencies.
